

OFFICIAL BALLOT

TUESDAY, NOVEMBER 2nd, 1920

For United States Senator

Vote for One

TASKER L. ODDIE

X

We endorse him because we have known him since Tonopah's earliest days. We know him to be a man of sterling worth, considerate of his friends and employees, one of Tonopah's finest and best citizens, respected and loved by every friend, and they are legion. We admire his efficiency and accomplishments as a public official.

TASKER L. ODDIE
For the United States Senate

We have full faith in him and his integrity; we know he is for Nevada and for the nation. Without regard to party affiliation, we unreservedly endorse his candidacy and commend him heartily to every voter and citizen.

WHY WE ENDORSE ODDIE

ODDIE AS GOVERNOR—He gave Nevada the ablest business administration and put the State where it rightfully belonged with the most advanced commonwealths of the nation. He was responsible for passing the Inheritance Tax which added materially to the revenue of Nevada. Oddie created the Public Service Commission to bring all public utilities under state control where they were compelled to render honest service for a fair consideration. This act alone reduced the bills of Tonopah consumers over \$50,000 a year. Oddie saw that a Tax Commission was established to equalize the burden that before had fallen on the small taxpayer. Oddie signed the death warrant of ambulance chasers and saved the workingmen of Nevada from legal sharks when he signed the bill creating the Industrial Commission paying for injuries or death without any expense to the family.

ODDIE AS A MINER—Oddie ranks as the founder of big business in Tonopah when he appeared as the first superintendent of the Tonopah Mining Company and paid \$4.00 a day when other camps in Nevada were paying from \$2.50 to \$3.50 for the same service. In Rhyolite, Silver Peak and Lucky Boy Oddie always paid higher wages than his competitors. This was done without compulsion and with the conviction that the laborer was worthy of his hire. Oddie did more than any other man or combination of men to maintain mining wages at the highest standard. This made the "Tonopah scale" the envy of every miner in the western region. When pressure was brought to bear on Oddie in Lucky Boy to force him to reduce the scale of wages, Oddie replied that he would shut down first before asking his men to work for less than he was paying them. Look at Oddie's record in the Silver Peak district when he paid \$4.50 for eight hours when the scale was \$3.50. That is the kind of man to tie to and work for at the election Tuesday, November 2.

STATE BANK LOOTING—Oddie went after that gang of ghouls with a whip of scorpions and would have compelled restitution had it not been for the succeeding Democratic administration which squandered the \$5000 appropriated by the legislature at the suggestion of Oddie without bringing about any prosecutions. Six years of Democratic misrule

in Nevada thwarted the effort of Oddie to secure redress for these long-suffering depositors of the State Bank & Trust Company. Oddie was the man behind the gun that fired the first shot at these despoilers of the poor.

ODDIE AS A MAN—Tasker L. Oddie gave his talents and fortune to help the people and add to the prosperity of Nevada. Today he is a prospector and miner without any bank to finance his campaign. His friends are taking care of that.

PROTECTING THE MINES—With proper protection against the pauper labor of Europe and the coolie labor of the Orient the mines of Nevada should increase their production to ten times the figure of today. Nevada has not been scratched and the industrial minerals have been robbed of a market by the free trade policy of the Democrats. Nevada has tungsten enough to supply the whole United States, its chrome deposits rival the best on the coast, vanadium exists in quantities that should employ thousands of miners were it not for the open door that admits foreign ores free of duty. Manganese, fluor spar and a manifold variety of clays are crying out for protection, while the cinnabar mines are idle for the same reason.

ODDIE AGAINST ASIATICS—Oddie stands for a united America against the encroachments of the yellow races. Fifty thousand of them are already rooted to the soil in California and the next jump will be to Nevada. No American wants to compete with the low-class labor of the Orient. Oddie is the man to stem the tide of Asiatic invasion. Control of the Pacific must be kept away from Japan. Wilson by his League of Nations surrendered to Japan the island of Yap, the keystone station of our Far Eastern cable and wireless system and brought the fortifications of Japan a thousand miles closer to the shores of the United States. With Oddie backing up Harding and Coolidge this spineless policy will not be tolerated. Japan will be told to stand back and keep her army and navy away from the shores of America. Japanese farmers and muckers are Japanese reservists and trained soldiers whose presence in this country is a menace. Elect Oddie and back up Harding.

THE LEAGUE OF NATIONS—This abomination must never be accepted as part of the American system of government.

This means war. The League means that your boys and your neighbor's sons may be called upon at any hour to go overseas to fight the battles of the British in Mesopotamia, to crush the liberty-loving people of Ireland or to throttle the spirit of independence in Macedonia, Egypt, or to rivet anew the fetters of slavery on the Boers of South Africa who are asserting the right of self-determination. The League of Nations means the death of the Monroe Doctrine and European domination of the American continents. Remember, there is no use electing Harding and Coolidge if you are going to tie their hands with a Democratic senate.

OPENING UP MEXICO—Oddie knows Mexico like an open book. Every mining man and working miner is interested in the southern republic. With Oddie in the square a firm, constructive American policy will take the place of the shiftless, vacillating, spineless attitude of the Democrats, and Harding will have a reliable, sincere, well-advised, earnest, honest and hard-thinking counselor who will see that American life and property are never jeopardized by the vandal hand of enemies. Reparations and indemnities for losses and injuries must be paid to thousands of Americans holding interests in the adjoining republic, and Oddie is just the man to see that the miner does not suffer from discrimination when it comes to adjusting accounts with Mexico.

ODDIE ALWAYS WITH THE PEOPLE—Oddie campaigned Nevada when he did not have a dollar to buy gasoline, when the prospector and desert rat shared his last five-gallon can of gas with "The Governor." Oddie camped out in the zero weather of the mountains on the warm side of a snowbank, he braved the dust-storms of Southern Nevada and lived for days at a time on sowbelly and beans while making a house-to-house canvass. No cabin was too low or humble for him to avoid. In this way Oddie got in touch with the masses and is closer to the hearts of the Nevada electors today than when he was enjoying his greatest prosperity. Oddie is the man of the hour. He suffered reverses but never was conquered by adversity. Oddie's indomitable spirit triumphed over all disappointments and today he ranks as the most eloquent optimist of Nevada.
